BABYLON - 3D printed in Germany with recycled wood

2024

# THE BABYLON - STORY

The famous **hanging gardens of Babylon** - or what one imagines them to be - as a functional source of inspiration and succulents as a formal source of inspiration combine to create a three-part planter that invites you to arrange different (artificial) plants.

Like three pots on an etagere, only united in one product. Babylon opens up **countless possibilities** for combining grasses with hanging plants, tropical arrangements or simply different herbs.

Manufactured using the **3D printing** process, the series has a number of advantages: there is virtually no production waste and only **recycled plastic** is used (sometimes even mixed with **wood fibres**). This means that the Babylon series is all about **sustainability**.

- +50° no deforming -20°
- double walled with easy planting system
- 100% waterproof & osmose-resistant

# PREMIUM. 100% INDOOR OUTDOOR

## Marine Quality.

The planters of the fleur ami PREMIUM COLLECTION consist of a robust glass fibre reinforced plastic with a 2 mm thick gelcoat coating in marine quality. This durable composite material is characterised by its particularly high weather resistance, UV stability, chemical and acid resistance as well as high impact and scratch resistance. The material known from yacht building remains waterproof, crack-free and osmosis-resistant for years. The double-walled planters ensure tasteful planting both indoors and outdoors thanks to a drain with twist closure. Retracted intermediate bottoms and counterweights guarantee maximum user-friendliness for the high planters. Various optional accessories such as adjustable feet, base plates, swivel castors and screw foundation ensure more flexibility and increase the stability of the beautifully designed planters.

- weathering resistant
- UV resistant / no color fading
- chemical / acid resistant
- impact / scratch resistant

# Classical, cubical.

New seamless production technique with visually improved, broader rim.

optional for all planters
